

BC | Climate Resilience
Summit 2025

Vancouver, Robson Square March 3rd/4th

Fraser Basin Council and the Northeast

How did the NECRN get started?

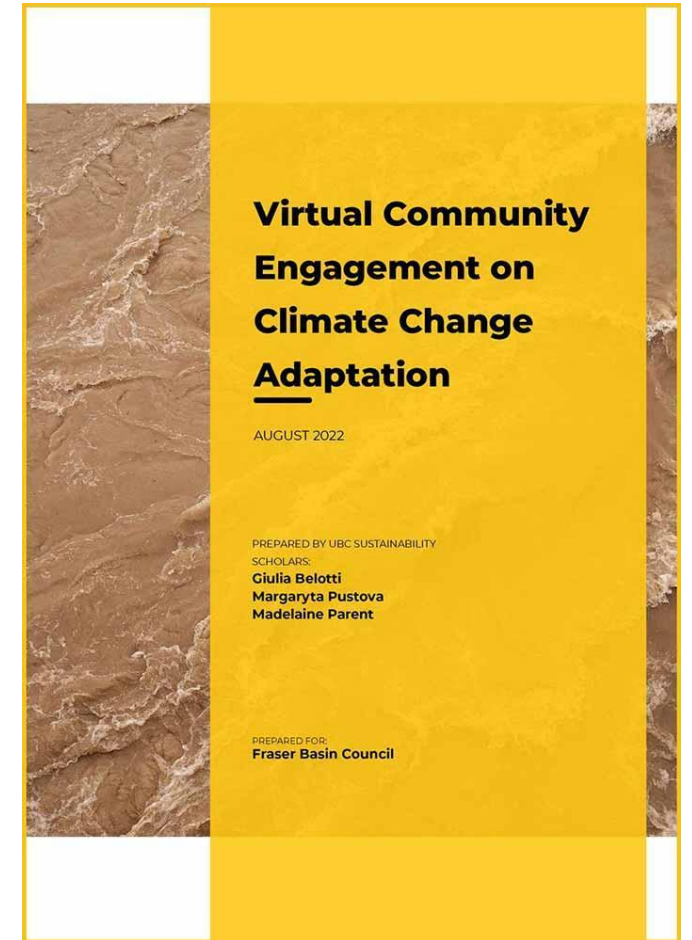

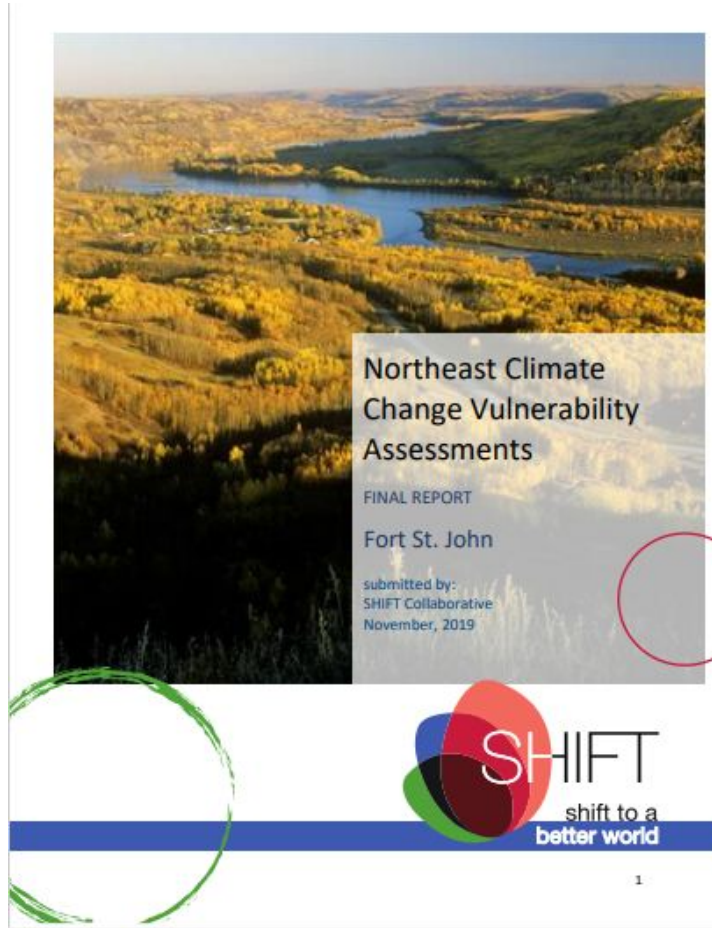

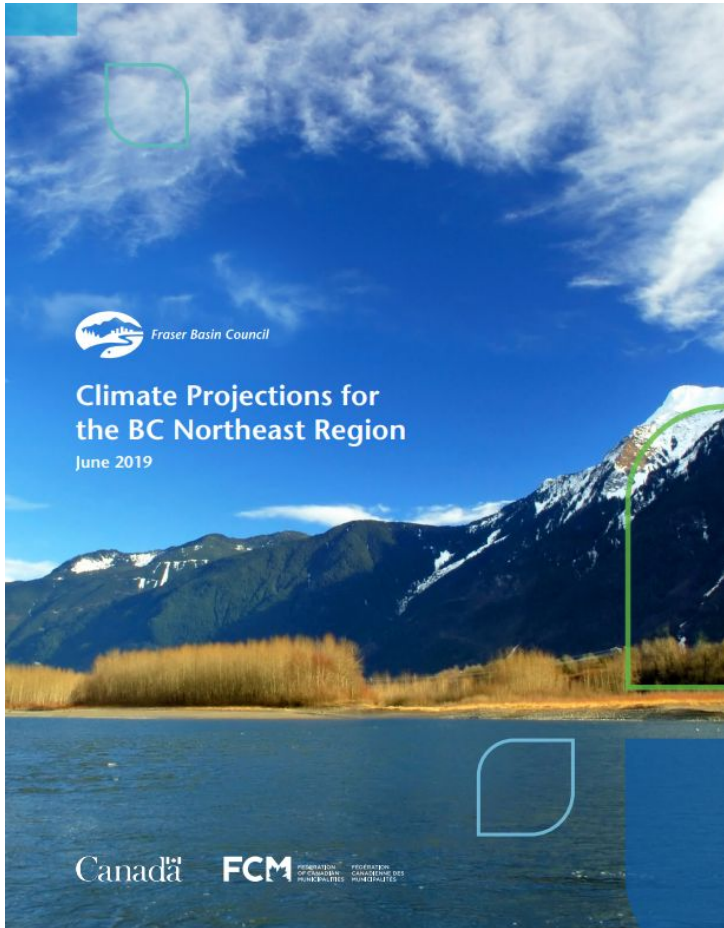

Coming Together

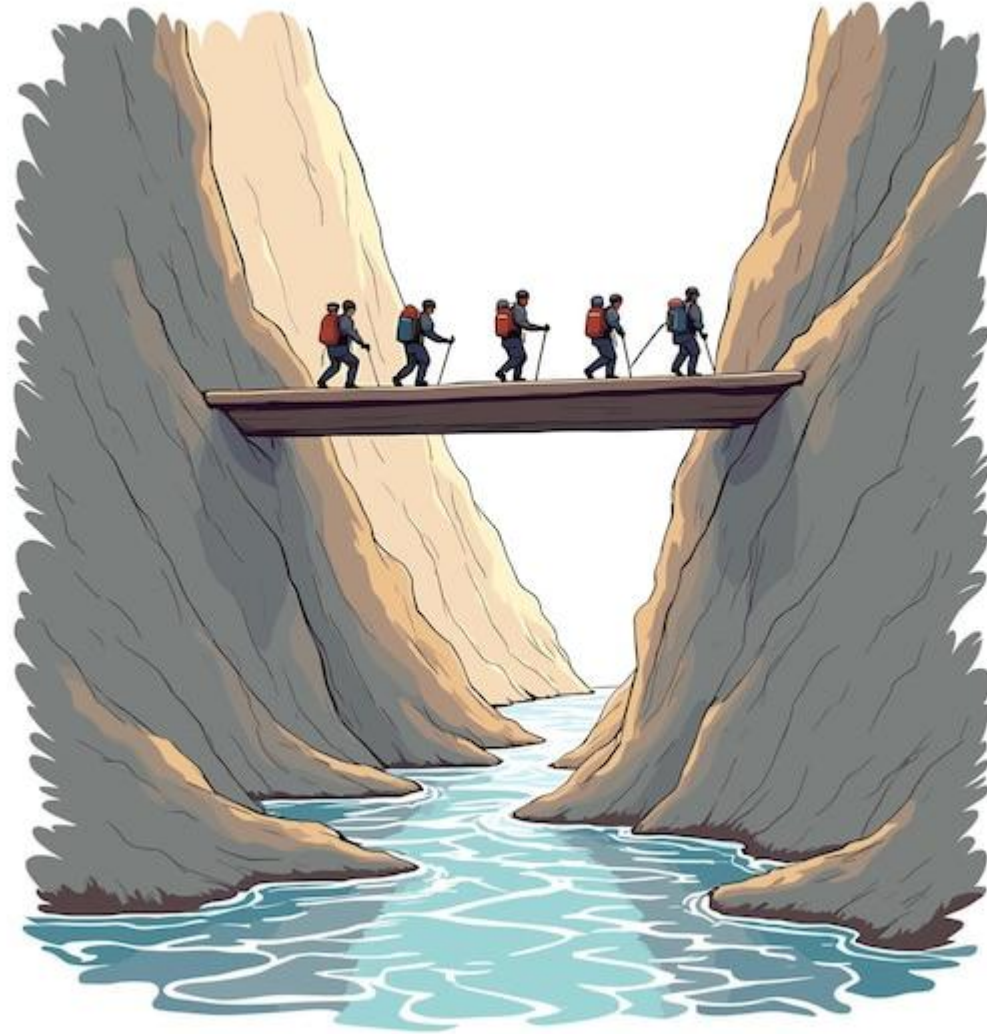

- 1 Support Northeast B.C. local governments in preparing for a changing climate and understanding the associated risks and vulnerabilities.
- 2 Collaboratively address climate risks at a regional and community scale through a peer network.
- 3 Increase community, public and private sector awareness of climate change impacts.

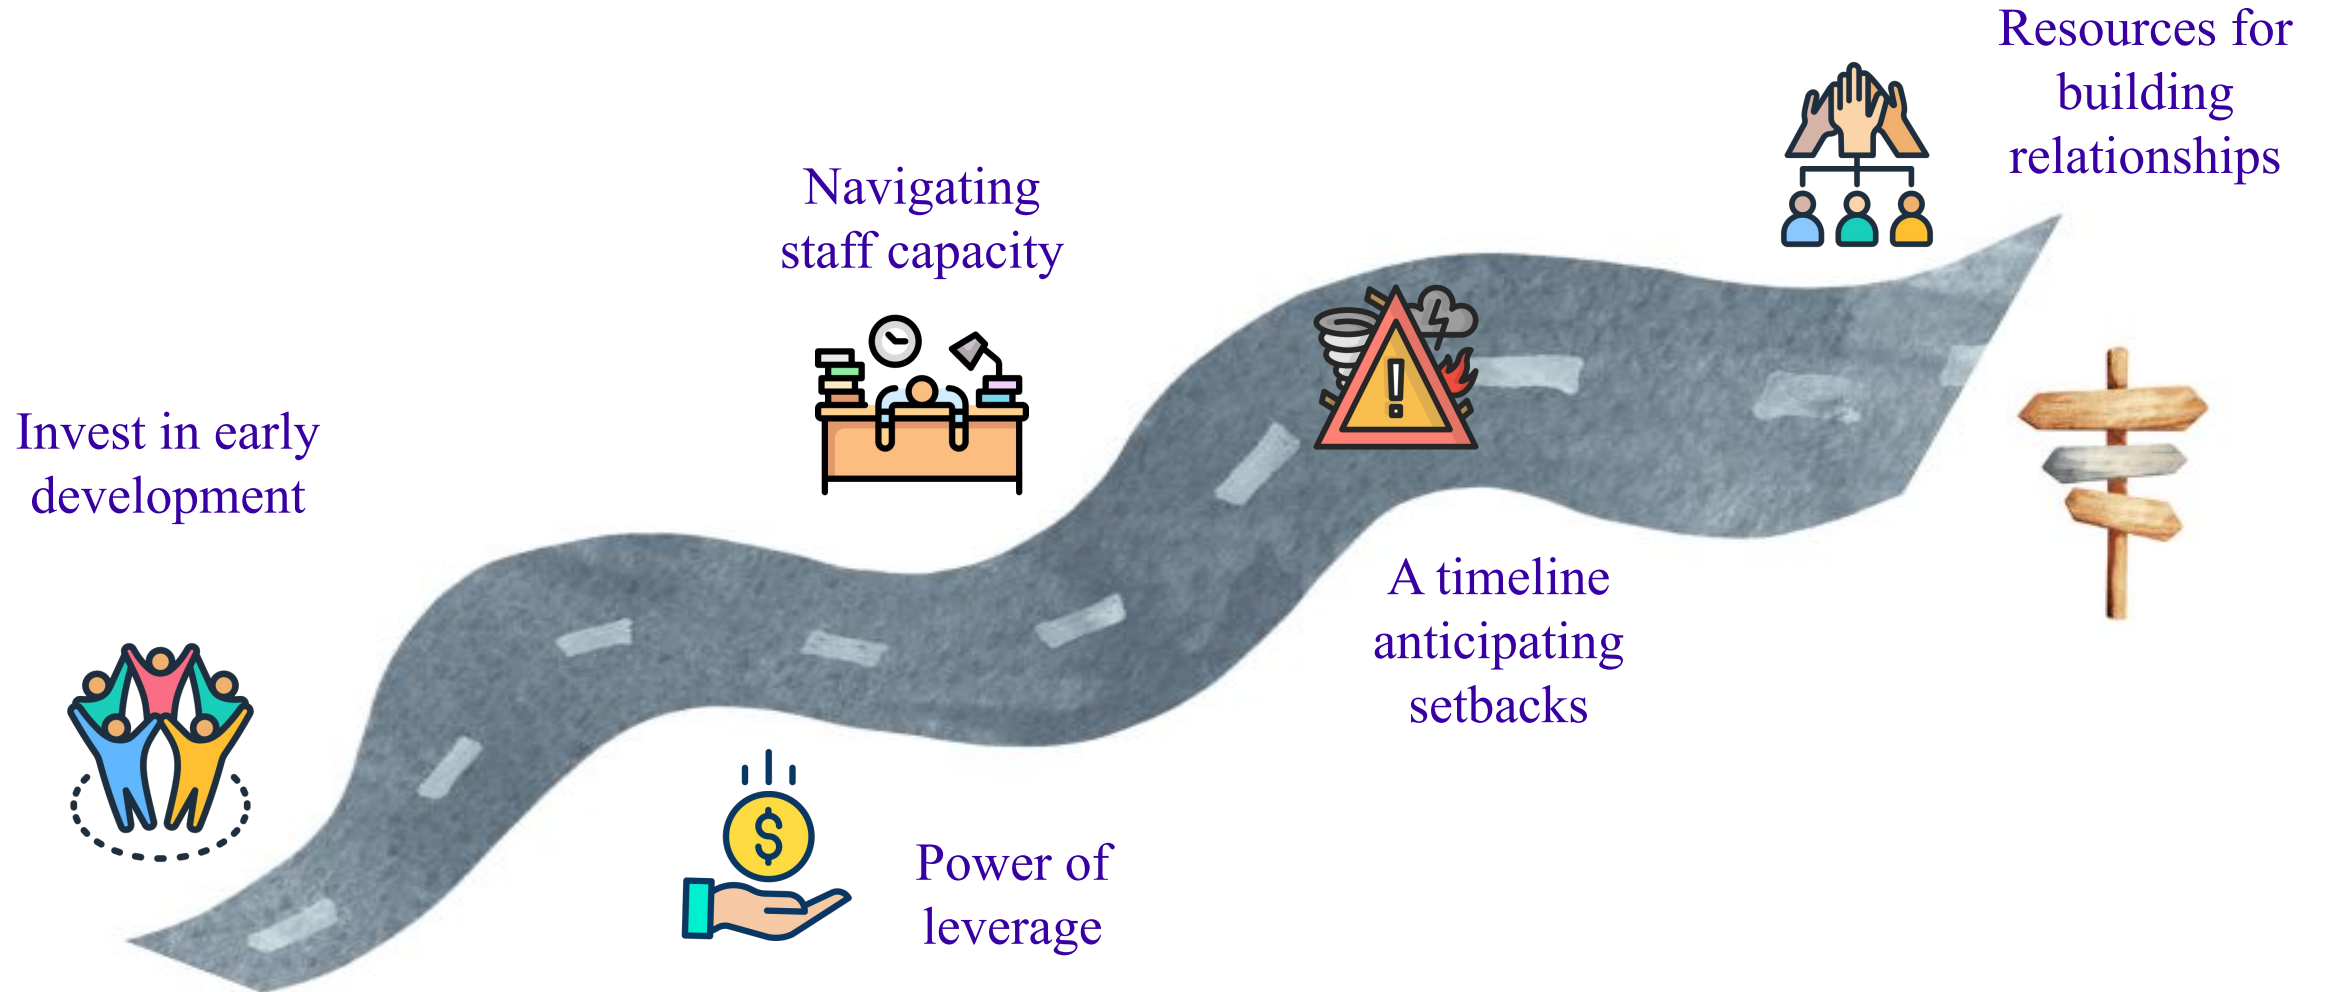

What work has the NECRN done?

Moving Forward

Lessons Learned
